awards

MAY 2022
CCS Student Exhibition
Annual event at College for Creative Studies showcasing the best student work of the academic year

Over 9 interactive, print, and motion design projects on display at the event

JUN 2019
One Page Love

Website providing daily UX inspiration

My landing page for a typeface called "Sans Three" was chosen as the daily design inspiration selection

experience

AUG 2020 – now
CCS Communication Design Department
Work Study

Creating schedules, maps, event posters, social media posts and other items to be used throughout the department. Organizing, inspecting, and looking after over \$20k in technology, tools, and equipment

JUN 2019 – now
Dive Media LLC
Co-Founder, Full Stack Developer

Dive is a privacy-focused startup that specializes in next-generation user content interactions. Working with a small team, I take leadership roles in design, marketing, finance, and principally software development. Listed below are the two recent services I've helped to parent

Hydrin (hydr.in)

The first 100% free website builder

UX design, front/back end communicative design, building and scaling an update that impacted over 1k unique Hydrin users

Dive Tap (divetap.com)

NFC-enabled card that allows for the easy share of contacts, files, and more

UX design, front/back end communicative design, physical product brand design, overseeing security and privacy update for over 250 devices

JUN 2022 –

Ministry Pass
UX Design Intern

AUG 2022

Working alongside head product designer and company leadership to explore various large- and small-scale improvements to product offerings and user flows. Held direct conversations with members of their over 3k paid subscriber base
